Art Unit: 3753

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-7, 12-18, drawn to a bridge fitting with projection, classified in class 285, subclass 134.1.
- II. Claims 8-11, drawn to a bridge fitting with seals, classified in class 285, subclass 335.
- III. Claims 19-21, drawn to an end bridge fitting, classified in class 285, subclass 18.
- IV. Claims 22-23, drawn to a check valve, classified in class 137, subclass 528.
- V. Claim 24, drawn to a valve, classified in class 251, subclass 12.

The inventions are distinct, each from the other because:

Inventions I, II, III and IV, V are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
